

CHARLES SHEVERS, JR.

MAY 7, 1884.—Laid on the table and ordered to be printed.

Mr. BAGLEY, from the Committee on Invalid Pensions, submitted the following

REPORT:

The Committee on Invalid Pensions, to whom was referred the petition of Charles Shevers, jr., late hospital steward on United States steamer Princess Royal, having considered the same, make the following report:

The case has been before the Pension Office, but the evidence is so slight that it has been rejected. Moreover, the examining surgeons all agree that there is no existing disability. The petitioner says that he is suffering from rheumatism and enlargement of the liver, the result of an attack of yellow fever; but the difficulty is that there is not sufficient testimony to sustain the claim as against the certificates of the examining surgeons. The committee ask to be discharged from the consideration of the case, and recommend that it lie on the table.
